

When the Weather Changes in Spring

Spring weather can change a lot.

Sometimes it is **warm**.

Sometimes it is cool or rainy.

In spring, I might need to wear different clothes.

Later in the day, the weather might feel **warmer**.

If I feel too warm, I can ask for help.

I can say, "I'm hot"

"Can I take **my jacket off**?"

Grown-ups help me stay comfortable and safe.

They know what clothes I need.

Spring weather changes are okay.

I can stay **calm** and flexible.
